Easi-Torches User Guide
(SN45190)

The TTS Colour-Changing Easi-Torches come in a set of 6 with a rechargeable docking station for easy storage and charging. Each torch has 4 colour settings (white, red, green and blue)
These simple yet captivating torches are ideal for not only investigating light but also exploring colour mixing.

What is included in your pack

Each pack contains:
- Rechargeable docking station
- 6 Easi-torches each with 4 colour settings.
- USB-C charging cable to be connected to the docking station
-

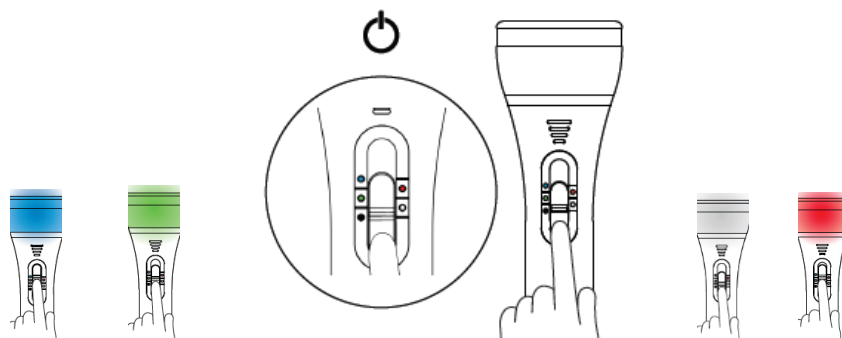

Charging the Easi-Torches and switching them on

Before using the Easi-Torches, make sure they are charged. Here is some charging information.
- To charge the Easi-Torches, sit them in their docking station, attach the USB-C cable to the docking station and plug in.
- The Easi-Torches will take approximately 3 hours until fully charged.
- Once charged, they will last for approximately 3.5 hours.
- Switch-on by sliding the slider from the off position (black dot on left side of slider) to the desired colour.
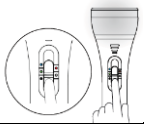

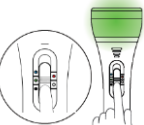

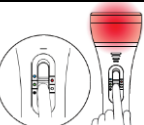

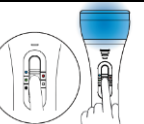

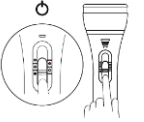

Easi-Torches User Guide
(SN45190)

There are 4 different light settings to choose from. Each setting can be chosen by simply sliding the slider gently up and down to change the colour.

Different settings for the Easi-Torches

Below is a table showing the 4 different settings and what each one does.

Options	What will happen
