

Loti-Bot & Oti-Bot Interactive Training

When you purchase a 4, 16, or 18 pack of Loti-Bots, or a 2, 4, or 6 pack of Oti-Bots, you will receive access to a comprehensive suite of 'self-paced' online learning resources that will teach you everything you need to know to get up and running in the classroom, including practical video examples of how to implement the bots across the curriculum!

What exactly do you get?

Online training modules that cover the key terminology, features, accessories, app information, and a wide range of global teaching and learning skills that each bot supports and aligns with.

Should you wish to test your knowledge and understanding, there are 20 questions that follow on from the product information, with the bar set at 80% to pass each module.

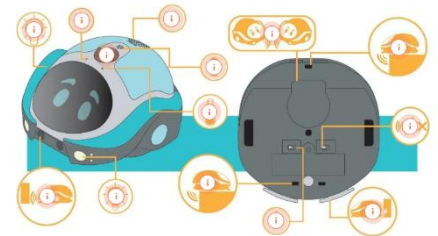

Comprehensive online training videos that highlight the key product features, technical information, as well as a wide range of practical product demonstrations to show how the bots can be implemented across the curriculum.

Loti-Bot to teach maths!

As well as the above, for any Loti-Bot multipack purchase, you will also receive a **video documentary** where you will see Loti-Bot in the classroom supporting with the teaching and learning of a wide variety of maths learning aims and objectives.
