

Reasons to **Love** TTS Black Label PVA Glue 5ltr

We know our TTS Own Brand range is great quality, but we don't expect you to take our word for it!

Here are some reviews written by TTS customers on social media.

"The TTS PVA glue has lasted my reception class fantastically; the glue is long lasting as the bottle is huge! The children have been accessing this during choosing time to explore sticking and making using different resources".

By Georgia Lucas, Misslucas.eyfs (on social media)

"A dependable, high-quality PVA glue that's perfect for a wide range of uses, from crafts to general classroom activities. It dries clear, provides a strong hold, and is easy to spread. The large 5L size is great value and ensures you won't run out anytime soon. A must have staple for any creative space".

By Rebecca Selmes,eyfs_fun_missd (on social media)

“We haven't actually used this yet. But I'm totally planning on making some DIY porcelain clay and slime with it! I usually don't go for big sizes 'cause I don't have much storage, but for DIY clay and slime, it's actually pretty useful”.

By Ann Wlod, Creative Play Everyday (on social media)

“A must-have for any creative space, this big bottle of PVA is both economical and versatile. It's strong enough for sticking heavier materials like card, fabric and wood, yet still ideal for everyday paper crafts. In primary classrooms, it's perfect for collage, papier-mâché and DT projects. Craft clubs will love how far it goes, especially when decanted into smaller pots for group work”.
