

# Reasons to **Love** TTS Ready Mixed Paint 16 x 1ltr

*We know our TTS Own Brand range is great quality, but we don't expect you to take our word for it!*

*Here are some reviews written by TTS customers on social media.*

*“The TTS ready mixed paint are beautiful shades and the bottles are huge, meaning they last a really long time. The paint is high quality and dries really nicely, giving a beautiful finish to the children’s artwork. The set includes various shades of colours which promote more usage of colours and brilliant opportunities for the children to explore colour mixing and understand shade variants of colours”.*

*“This paint set is fantastic for big, messy, creative fun. The colours are vibrant and ready to use straight from the bottle, no mixing needed. Ideal for classrooms, group activities, or serious crafting sessions. Even better, the paint washes out of clothing easily, so you can relax and let creativity take over without worrying about the cleanup!”.*

*“Great selection of colours. The paint is more runny than other brands I’ve used in the past. The bottles are massive, which is great for schools and nurseries, but not so great for home-educating families like us, as storage is always a problem. I would only consider buying this product if it were offered in smaller bottle sizes”. (TTS Comment: NB. There are single bottles and smaller volumes available)*

*By Ann Wlod, Creative Play Everyday (on social media)*

*“This set is a dream for teachers who want reliable, ready-to-use colour without the mess of mixing. The paint pours easily, gives strong coverage and washes out of most surfaces, which is always appreciated in a primary classroom. With so many incredible colours, it’s perfect for whole-class art sessions or craft clubs where children love to experiment. Great for posters, printing and big collaborative murals”.*
